SUMMARY

Fresher Java Backend Developer with a strong foundation in microservices, event-driven architecture, and REST API design. Built 3 production-style Spring Boot applications processing 10K+ simulated transactions with a 45% API latency reduction. Skilled in Spring Boot, MySQL, and Git. Seeking a junior backend role to build secure, scalable systems.

TECHNICAL SKILLS

- Languages: Java 17/21, SQL, PL/SQL
- Backend: Spring Boot 3.x, Spring Security 6, Spring Data JPA, Hibernate, REST APIs
- Messaging & Caching: Kafka basics (event-driven Saga orchestration), Redis basics
- Databases: MySQL 8, Oracle SQL, MongoDB (NoSQL)
- DevOps: Docker, Apache Tomcat, Git/GitHub, CI/CD basics
- Tools: Maven, Gradle, IntelliJ IDEA, Eclipse
- Architecture: Microservices, API Gateway, Design Patterns, SOLID principles

EXPERIENCE / PROJECTS

Delivoos — Food Delivery Enterprise Platform

Feb 2026 – Apr 2026

Backend Developer (Personal Portfolio Project) | Spring Boot, Kafka, Redis, MySQL, Docker

- Designed and deployed an event-driven microservices architecture spanning 8+ services
- Implemented a Kafka broker for order processing, sustaining 1,000+ msgs/sec throughput
- Reduced API response time 45% by introducing a Redis caching layer
- Built an API Gateway with 10+ REST endpoints across customer, restaurant, and delivery flows

SmartBank — Enterprise Banking Portal

Dec 2025 – Feb 2026

Backend Developer (Personal Portfolio Project) | Spring Boot, Spring Security 6, MySQL

- Developed a secure digital banking platform with atomic (ACID) transaction handling
- Engineered 30+ REST APIs covering customer, transaction, and account management
- Implemented Spring Security 6 with JWT authentication and role-based access control
- Load-tested 10,000+ simulated transactions with zero data loss

Smart Logistics & Supply Chain Portal

Oct 2025 – Jan 2026

Backend Developer (Personal Portfolio Project) | Spring Boot, MySQL, Redis, REST APIs

- Built a real-time dashboard with live KPI analytics for warehouse and shipping operations
- Implemented a Redis cache failover strategy, cutting database queries by 60%
- Designed a fuzzy-search command palette for fast shipment tracking
- GitHub: github.com/abhishektangade965-crypto/Smart-Logistics

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025 (Expected)

R B Attal College, Georai — Dr. Babasaheb Ambedkar Marathwada University | Grade: 75% (3.0/4.0 GPA)

- Relevant coursework: Data Structures, RDBMS, OOP, Software Engineering

CERTIFICATIONS & LEARNING

- Java Programming Masterclass — Udemy (Completed)
- Spring Boot Microservices — Udemy (Completed)
- SQL Query Optimization — Udemy (Completed)

SOFT SKILLS

- Problem-Solving: Debugged complex concurrency issues in multithreaded Spring Boot applications
- Attention to Detail: Wrote 30+ REST APIs with zero known OWASP vulnerabilities
- Communication: Documented system architecture decisions for the Kafka event-driven pipeline
- Collaboration: Incorporated mentor feedback into production-style code reviews
